MEMORANDUM FOR: [redacted]

STAT

Director of Information Services, DDA

FROM:

J. Kenneth McDonald
Chief, DCI History Staff

SUBJECT:

Proposed Destruction of Presidential Library Material

1. [redacted] has let me have a look at the list of documents contained in the approximately 105 cubic feet of documents referred to in [redacted] of 6 February 1986, "Destruction of Presidential Library Material."

STAT

2. This material, covering the 1961-1979 period, appears to be a valuable collection, since it has historically important records that are otherwise either widely dispersed or perhaps not available at all. I would therefore be very grateful if a member of the History Staff could survey this material at the Records Center before any steps are taken for its destruction.

STAT

STAT

3. I should perhaps note that I asked [redacted] about the nature of this material after I received [redacted] and on 3 March 1986 he reported that the records in question were only a collection of duplicate PDBs. I'm sure that this was the best information available at that time, but now that an on-site inspection has revealed the records' actual scope I thank OIS for giving me an opportunity to renew my interest in their disposition.
